PRODUCT DESCRIPTION

Designer: Lodes

Lodes A-Tube Nano Pendant Light

A smaller LED version of the **A-Tube Pendant**, the A-Tube Nano pendant is a delicate and minimalist light with precise details and a modern feel. The linear structure is crafted from lightweight aluminium, which houses an LED module. A small methacrylate diffuser softens light, spreading it into a uniform glow that surrounds the suspension. This gentle lighting is ideal for creating a welcoming atmosphere throughout the home.

At only 2cm in diameter, the A-Tube Nano offers a delicate addition to any space, whether installed as a simple, singular pendant or as a large installation. Available in 4 statement finishes and three sizes, the A-Tube Nano can be hung in clusters to create an evocative lighting display that perfectly fits any space. Display above a dining table for intimate lighting that brings a sense of elegance to the room. In commercial spaces, the A-Tube Nano is perfect for creating unique displays in hotel lobbies or restaurants that will leave a lasting impression. The A-Tube Nano comes with a matte white ceiling canopy as standard. **Contact us** if you require a different canopy colour.

The A-Tube Nano LED pendant is available with a transparent cable and also as a personalised cluster, using a Lodes Cluster Canopy. Use the Lodes Configurator to construct your own cluster online.

PRODUCT SPECIFICATION
