PRODUCT DESCRIPTION

Designer: Andrea Tosetto

Lodes Rain LED Pendant

The Rain Pendant was inspired by the lightness of spring rain, creating the appearance of a falling droplet of water, frozen in time. With a simple and linear form, the Rain Pendant is comprised of an aluminium body, available in Matte Black, Chrome, and Champagne, which can be matched with three different accents (Matte Black, Chrome, and Champagne).

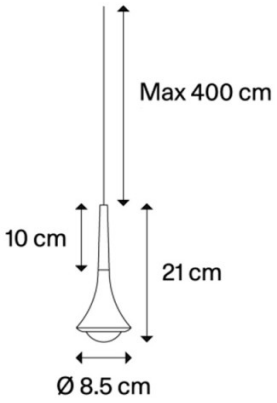

The Rain Pendant houses a 7W LED module. When illuminated, a convex glass lens projects light into a wide, glare-free beam for powerful lighting that enhances the space around it. The downward-directed light is well-suited for task lighting above a work surface, kitchen island, or dining table. Display a single pendant for a subtle touch of elegance to the room, or, in larger areas, create grand compositions by installing a cluster of pendants at various heights. In commercial spaces, the Rain Pendant can be installed in spectacular compositions in hotel lobbies or contemporary restaurants for a dynamic display that will leave a lasting impression.

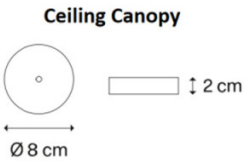

The Rain Pendant is also available to cluster from 3 pendants upwards by using a Lodes Rectangular or Circular Ceiling Canopy. Contact us for more details and prices.

The structure and top section are also available in a Natural Brown finish. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	7W, 3000K, 1300 Lumens
IP Code:	20
Dimming:	Dimmable via Triac dimming.
Dimensions:	Ø8.5cm Shade Height: 21cm Ceiling Canopy Ø: 8cm Ceiling Canopy Height: 2cm Max Cable Length: 400cm
