PRODUCT DESCRIPTION

Rain Pendant Light by Lodes

The Rain pendant was made to resemble rain droplets, bringing the magical and wondrous natural phenomenon of raining indoors. The lampshade is made from metal with either a chrome finish or a matte black finish which has a slender stem which grows down into a globular end. The integrated LED light source is then encapsulated in the bottom by a rounded glass diffuser.

The Rain pendant light emits a downward direct glow which is perfect for illuminating any space in both commercial and home settings. The top half of the pendant comes in 5 colours to choose from, adding a subtle splash of colour to the light which is stylish and effective. Each pendant also comes with a Single Mini Ceiling Canopy by Lodes, with 4 colours to choose from, giving you a touch of personalisation. Stunning and artistic, this pendant light is sure to impress.

The Rain pendant light is also available to cluster from 3 pendant lights upwards by using a Lodes Rectangular or Circular Ceiling Canopy. Please [contact us](#) for more details and prices.

PRODUCT SPECIFICATION
