LODES

MakeUp Wall/Ceiling Light by Lodes

The MakeUp wall and ceiling light was made by Lodes in 2015. A functional and also decorative ceiling/wall light, the MakeUp light is made from metal with a blown glass diffuser in a subtle white colour so it can blend into any design scheme whilst also making a statement. The MakeUp ceiling/wall lamp comes in 3 sizes, and it is designed so that up to 50 individual lights can be linked together to one junction box so you can create your own unique and dynamic light fixture.

This wall/ceiling lamp has an integrated LED light source which is dimmable and has a 3000K (warm white) colour temperature so you can have a nice, warm atmosphere or a brighter glow to fill the room. The diffused, evenly-spread illumination lights space well and the simple yet elegant design makes the MakeUp ceiling and wall light suitable for a wide variety of settings. Buy multiple to create a light feature or buy one to have an effective singular light.

IP Code: 30

Dimming: Dimmable via Triac dimming
