PRODUCT DESCRIPTION

Designer: TAF Studio

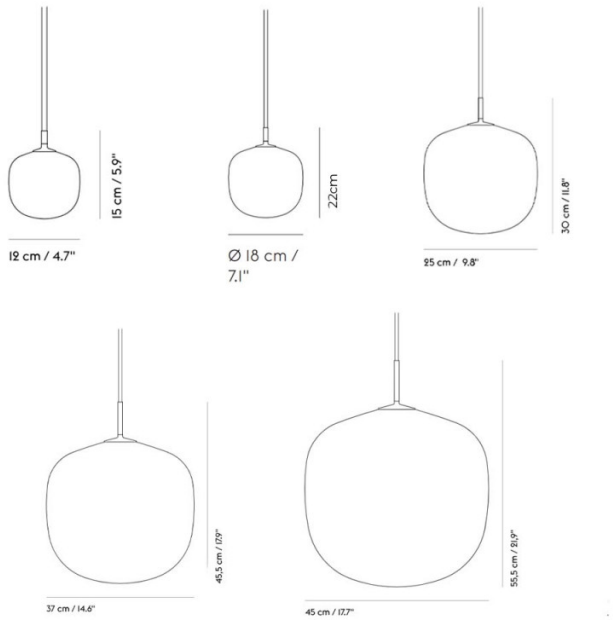

Rime Pendant Light by Muuto

A 2020 release from Muuto, the Rime pendant light was designed by TAF Studio. This pendant was developed from the studio's want to create a light using simplistic and elegant forms, using mouth blown glass in its purest way to produce a stylish and chic light. The gentle and smooth shape of the pendant light is inspired by an acorn, using its round, curved lines and applying it to light design. The lampshade is made from translucent glass which warms up as the light is turned on, producing a soft, diffused glow that delightfully fills the room.

The simple form of the Rime pendant means it can subtly slip into any design scheme. This light has a fitting and pendant tube available in 5 different colours and in 5 sizes, so you can choose the right finish and size to match your interior. Perfect for many settings such as lounges, kitchens, dining rooms and bedrooms, you can buy several to put in rows, buy one in a larger size as a main light or mix and match several sizes and colours to create a beautiful cluster that will amaze and stun.

PRODUCT SPECIFICATION
