PRODUCT DESCRIPTION

Designer: Antoni Arola & Enric Rodríguez

Vibia Bamboo Surface LED Outdoor Floor Lamp

An exterior light that becomes a beacon for your home, holiday house or business, the Bamboo surface floor lamp can be used for the garden, entrance or any outdoor area. Designed by Antoni Arola and Enric Rodriguez for Vibia, the Bamboo has an organic and natural feel due to its streamlined design. Each light is composed of a single cane with light being emitted downwards and guiding you in the pathway or garden.

The Bamboo surface floor light comes with an integrated LED source and the IP rating makes it ideal for exterior lighting, whether for residential or commercial purposes. The floor light is available in two sizes, small 4800 or medium 4801 and in three colour options, oxide, off-white and khaki. The neutral colours make it easy for the lights to blend in with the landscape. Take a look through the rest of the Bamboo outdoor lights, which includes Bamboo floor lamps of various shapes and sizes.

Driver included: CC - Constant Current 700 mA 100-240V 50/60Hz
