PRODUCT DESCRIPTION

Designer: Antoni Arola & Enric Rodríguez

Vibia Bamboo Built-in LED Outdoor Floor Lamp

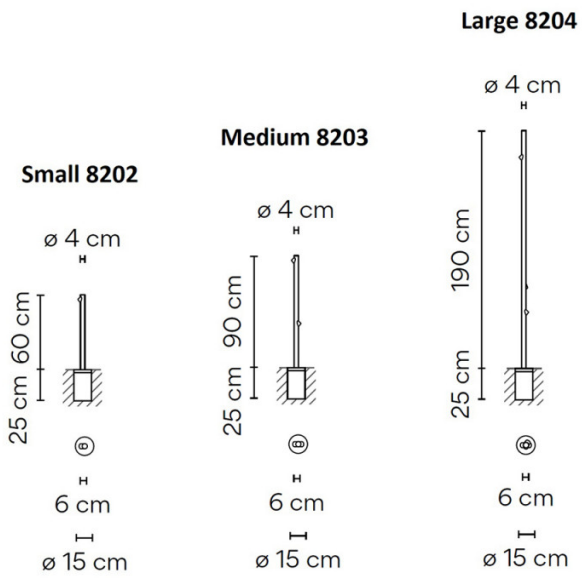

A beacon of light, organic and natural looking the Bamboo built-in floor lamp is the perfect lighting solution for your home or business. The streamlined silhouette has design references to the Asian perennial plant which it was named after. The designer duo Antoni Arola and Enric Rodriguez created the Bamboo collection for Vibia, a series of single or multi-stem exterior lights with the aim to create a harmonic outdoor lighting setting.

The Bamboo built-in floor light has a wide recessed surface, which will go beneath the ground surface and can be installed into concrete. All Bamboo floor lamps benefit from an integrated LED source, emitting a low-lumen output, but enough to guide you through a path or to highlight the garden landscape. The colour options are neutral, including oxide off-white, and khaki green, so that the Bamboo floor light can integrate easily into your exterior landscape.

Driver included: CC - Constant Current 700 mA 100-240V 50/60Hz

PRODUCT SPECIFICATION

Light Source:	**Small 4802** - 1 x 2.1W, 2700K, 199 Lumens **Medium 4803** - 2 x 2.1W, 2700K, 199 Lumens **Large 4804** - 3 x 2.1W, 2700K, 199 Lumens
