PRODUCT DESCRIPTION

Designer: Thomas Bernstrand & Stefan Borselius

Zero Bob Bow LED Suspension

The Zero Bob Bow LED Suspension is a striking arched pendant light designed by Thomas Bernstrand and Stefan Borselius in collaboration with Blå Station. This contemporary fixture features three rounded luminaires connected by two sweeping bows, forming an elegant structure that harmonises with the modular design of Blå Station's BOB sofa system. Designed for commercial and residential spaces, it provides a sculptural lighting solution for meeting rooms, lounge areas, and hospitality interiors.

Constructed from painted aluminium and steel with a matt acrylic diffuser, the Bob Bow delivers warm, glare-free 3000K illumination with a high CRI of 90, ensuring superior colour rendering. The fixture is suspended from a 2.5m cable and wire, making it adaptable for various ceiling heights. Available in black or white, it integrates seamlessly into modern interiors, with additional custom finishes available on request.
