PRODUCT DESCRIPTION

Designer: BIG

Artemide Gople Table Lamp

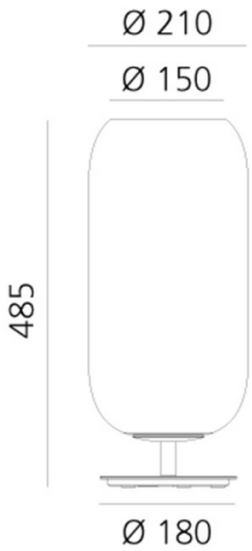

Artemide Gople Table Lamp combines the characteristic Gople diffuser with a simple aluminium base and an elementary shape to highlight the quality of hand-blown glass. Designed by BIG, Bjarke Ingels Group, it brings the collection into a table format for indoor use.

Venetian techniques fuse white glass with crystal for the white version. A sustainable PVD metal vacuum deposition process creates the blue, copper, bronze, and silver finishes, giving the glass its specific finish.

Artemide Gople Table Lamp is available in finish combinations including Black/Blue, Black/Bronze, and Black/Copper, providing soft ambient illumination for various interior settings. This table version is most suited for side tables, consoles, and shelving units within the home.
