PRODUCT DESCRIPTION

Designer: Thomas Bernstrand

Zero Shibuya Ceiling / Wall Light

Designed by Thomas Bernstrand, the Zero Shibuya Ceiling/Wall Light brings a playful energy and striking material contrast to residential or commercial interiors. Its compact base is crafted from painted aluminium, while the diffuser is made from crackled glass, available in red, grey or cognac. This unique combination casts soft shadows across the surface, creating an ambient glow and visual interest, even when switched off.

The Shibuya light can be installed on either the wall or ceiling, offering flexibility for different applications. Whether used as a single feature or in grouped compositions, it adds a sense of colour and personality to the space. It is ideal for hallways, hospitality interiors or living areas where visual detail is key.

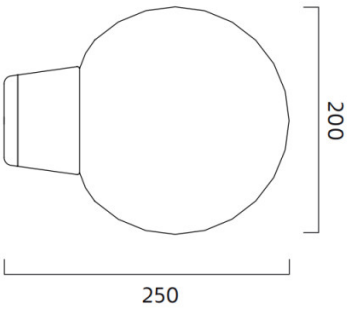

Please note, alternative base colours are available for this product. Contact us for pricing and information.
