PRODUCT DESCRIPTION

Designer: Joana Bover

Sisal LED Outdoor Wall Light by Bover

The Bover Sisal LED Outdoor Wall Light was designed by Joana Bover in 2019 to add to their extensive outdoor collection. Because of this, it was designed to exist within the same aesthetic as the rest of the collection, using the combination of metal and synthetic fibre. The structure is in a lovely graphite brown metal finish with a decorative woven section that is available in either a brown or light beige colour. You can also purchase without the woven section for a more streamlined look.

The Sisal LED outdoor wall lamp comes with an integrated LED light source that sits in the top, with the overhang allowing the light to reflect off the wall lamp and direct downwards. The light source in environmentally friendly and long-lasting and the synthetic fibre is also recyclable making this wall light very eco-conscious. Perfect for many exteriors, it can be used to line the walls in your garden or patio, as a door light or as a handy yard light. Natural looking and chic, do not miss out on this functional and stylish light.
