Secto Victo Small 4251 Pendant Light

The Secto Victo Small 4251 pendant light was created to cater to spaces where the larger Victo 4250 pendant may feel overwhelming. Standing at just 39cm high, this scaled-down version retains all the aesthetic appeal and craftsmanship of its predecessor, making it an ideal choice for smaller rooms or areas requiring a subtler lighting solution.

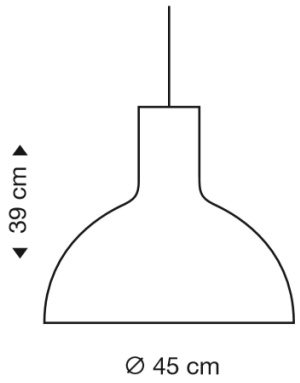

Handcrafted from PEFC-certified Finnish birch, the Victo Small 4251 showcases a slatted design that provides a warm and soft luminosity, perfect for creating a cosy and relaxing atmosphere. Its versatile design works equally well as a standalone centrepiece or as part of a group installation above dining tables, kitchen islands, or workspaces.

Available in natural birch, white or black lamination, and a walnut veneer, the Victo Small 4251 offers a range of finishes to suit various interior styles. Pair it with other designs from the **Secto** range, including wall lights, floor lamps, and table lamps, to achieve a cohesive and elegant lighting scheme.

Please Note: The Secto Victo Small 4251 Pendant in Birch, White and Walnut is supplied with a white textile cable and ceiling cup as standard, while the Black finish is supplied with a black cable and ceiling cup. Longer cable lengths are available on request at an additional cost. The pendant can also be connected to a DALI lighting system using a separate compatible DALI dimmer, which is not supplied by Secto. Please contact us for further information.
