PRODUCT DESCRIPTION

Designer: Lee Broom

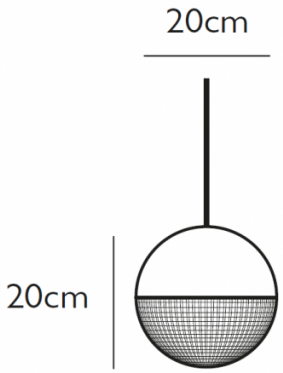

Little Lens Flair Pendant by Lee Broom

After the great success of the Lens Fair lights, Lee Broom brings us their latest addition to the collection; the Little Lens Flair lights. The small suspension light differs only in size from the original light but shares the same aesthetics and appeal. Inspired by telescopic lenses and refractions, the light is made up of two halves, which are then seamlessly joined.

The two halves are notably different, the top half crafted from solid steel in either a brushed brass or matte black finish, whilst the bottom half is a transparent lens that diffuses and emits light. The two halves make a perfect sphere, and no matter which finish you choose, the Little Lens Fair pendant is an eye-catcher. With a 3m cable, the light can be hung from various ceiling heights and either as a standalone or clustered together with multiple other pendants. The Lens Fair Collection also includes the Little Lens Fair chandelier, a suspension light made up of three Little Lens Flair Pendants.

PRODUCT SPECIFICATION

Light Source:	1 x Max 4.5W E27 LED dimmable (included by Lee Broom)
IP Code:	20
Dimming:	Dimmable using leading edge dimming.
Dimensions:	Height: 20cm Width: 20cm Cable Length: 300cm Ceiling Plate: Ø12cm x 3cm
