### PRODUCT DESCRIPTION

**Designer:** Garcia Cumini

### Foscarini Spokes 2 MyLight Pendant Light

Part of the [Foscarini Spokes Collection](#), the Spokes 2 MyLight Pendant is a contemporary and stylish light that takes its name from the spokes on a bicycle wheel because of its metal rod design. The light is crafted into a lovely rounded shape which is appealing and inviting, suitable for many rooms in both homes and commercial spaces.

The Spokes 2 MyLight Pendant Light has 2 LED integrated light sources with one pointing upwards and one directed downwards. This allows for a functional downlight that would look good hung over tables and the upper light reflects through the rods, creating playful shadows that are decorative. Available in 3 sizes and 5 colours, this light is truly innovative as it can be dimmed via Bluetooth using the Casambi app on any smart device.

**Please Note:** Foscarini are currently making adjustments to the LED light source of the Spokes. This means the brand is currently providing two slightly different versions, and if you are wishing to purchase more than one Foscarini Spokes Pendant, please [contact us](#) to ensure all fittings are supplied with the same specifications.
