PRODUCT DESCRIPTION

Designer: Davide Besozzi

Manto by Axolight

Available in three sizes, the Manto suspension light has a futuristic element to it. Designed by Davide Besozzi for Italian lighting company, Axolight. The light is comprised of an opaline glass sphere which houses the integrated LED. A telescopic arm supports the sphere, which can be adjusted into different positions - higher or lower. You may wish to leave the sphere hanging above the elastic fabric, or lower and let it immerse into the material. The fabric itself is stretched over a metal ring and fixed in a horizontal position. All the above elements are interconnected via a series of steel rods; all metal parts are painted a light grey finish.

The relationship of the sphere and elastic fabric will determine the shape of the suspension as well as the light diffusion; different positions of the sphere will affect the light distribution. Manto is a light that can be utilised to define any interior space; installed as a standalone or in multiple compositions to create a stunning effect.

PRODUCT SPECIFICATION

Light Source:	**Manto 70** - 18W, 3000K, 1956 lumens **Manto 120** - 24W, 3000K, 2507 lumens **Manto 180** - 28W, 3000K, 2894 lumens
IP Code:	20
Dimming:	Dimmable via 1-10v dimming systems. Please consult your electrician, additional wiring may be required on site.
Dimensions:	**Manto 70** Ø 70 cm 74.5 cm height Ø 16 cm inner sphere max 374.5 cm drop height **Manto 120** Ø 120 cm 83.5 cm height Ø 25 cm inner sphere max 383.5 cm drop height **Manto 180** Ø 180 cm 93.4 cm height Ø 35 cm inner sphere max 394 cm drop height Ø 23 x 5.5 cm ceiling canopy
