PRODUCT DESCRIPTION

Designer: Serge & Robert Cornelissen

Kwic Suspension by Axolight

Kwic was designed by Serge and Robert Cornelissen for Italian brand, Axolight. The suspension is comprised of an aluminium disk - available in two sizes - and a decentralised opaline glass diffuser. The diffuser houses the integrated LED source, emitting a warm white (3000K) light. Kwic will add an intense light into any interior, radiating from the opaline diffuser while the glow is filtered through the frame. The Kwic suspension can become a centre piece and attract all eyes, or remain a more discrete presence depending on the installation. Whether above tables, in the living room, in a corner or in commercial spaces, Kwic is guaranteed to impress.

The family also includes a [ceiling/wall light](#) available in two sizes, and a [floor lamp](#).

PRODUCT SPECIFICATION

- Light Source:** 18W, 3000K, 2151 lumens
