# Axolight

## Kwic Suspension by Axolight

Kwic was designed by Serge and Robert Cornelissen for Italian brand, Axolight. The suspension is comprised of an aluminium disk - available in two sizes - and a decentralised opaline glass diffuser. The diffuser houses the integrated LED source, emitting a warm white (3000K) light. You may choose between an intense black finish or a transparent bronze colour. Kwic will add an intense light into any interior, radiating from the opaline diffuser while the glow is filtered through the frame. The Kwic suspension can become a centre piece and attract all eyes, or remain a more discrete presence depending on the installation. Whether above tables, in the living room, in a corner or in commercial spaces, Kwic is guaranteed to impress.

The family also includes a [ceiling/wall light](#) available in two sizes, and a [floor lamp](#).

Designer: Serge & Robert Cornelissen

IP Code: 20

Dimming: Dimmable via 1-10v dimming systems. Please consult your electrician, additional wiring may be required on site.

Dimensions:

### Kwic 36

Ø 36 cm disk

Ø 15 cm diffuser

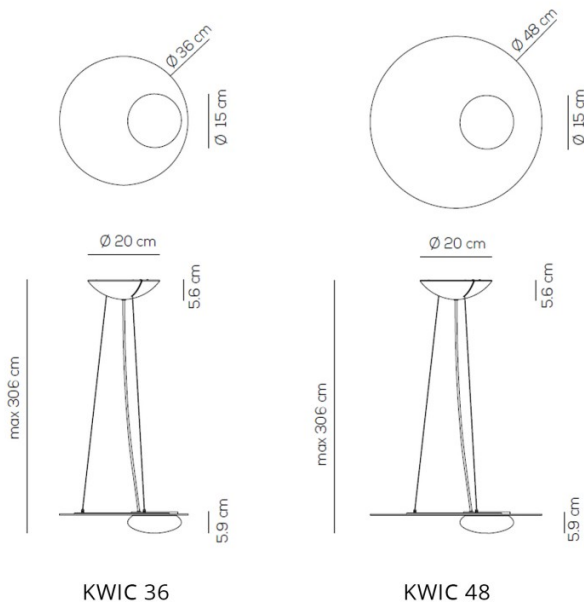

### Kwic 48

Ø 48 cm disk

Ø 15 cm diffuser

Ø 20 cm x 5.6 cm ceiling canopy

max 306 cm drop height

The logo for David Village Lighting, featuring the company name in white text on a dark blue background. Below the text is a horizontal gradient bar transitioning from dark blue to light blue.
