PRODUCT DESCRIPTION

Designer: Dima Loginoff

Axolight Urban LED Ceiling Light

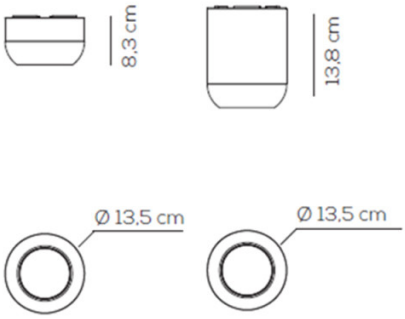

The Urban LED Ceiling Light was designed by Dina Loginoff for lighting brand Axolight. Dima aimed to create a lamp that boasts a beautiful shape with good lighting inside. The simple geometric form is available in a wide range of finishes and features a post-industrial aesthetic that suits a range of interiors. Available in two sizes, the Urban Ceiling Light measures at a height of either 8.3cm or 13.8cm.

When illuminated, the Urban Ceiling Light projects light downward to create functional task lighting. Light is diffused for a glare-free glow that adds a pleasant atmosphere to the surrounding space. The minimalistic design looks as impactful when installed individually as when it's in a cluster. Create a unique display by installing in multiples, altering sizes and finishes to suit your personal style. The Urban Ceiling Light can be displayed throughout the home, above surfaces for an effective task light, lining the length of a hallway, or above a shelf to highlight a piece of art.

The Urban Ceiling Light is available in fifteen bold finishes, including White, Blue, Red, Green, Yellow and Black. Contact us for more information and pricing.
