PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Bover Amphora LED Floor Lamp

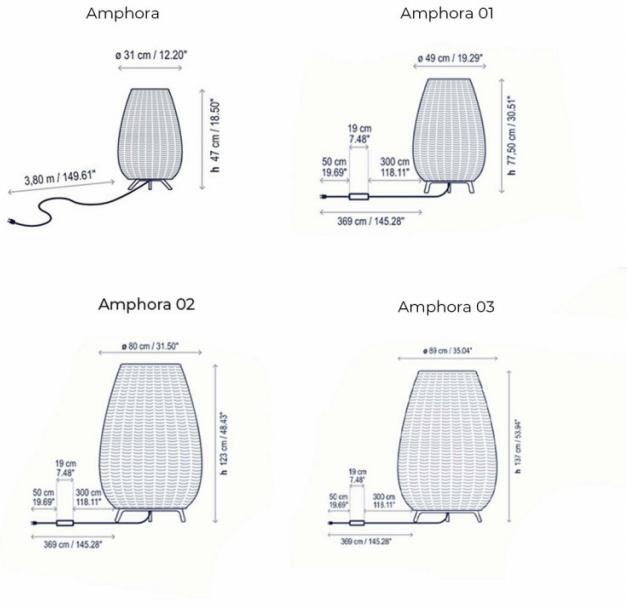

The Bover Amphora LED Floor Lamp is the newest light to join the Bover Amphora collection, a wonderful range by Alex Fernández Camps & Gonzalo Milá. This new addition boasts the same soft rounded shape, but now with an integrated LED light source that sits in the base, encased by a diffuser globe.

This lighting solution pays a subtle and discreet homage to the terracotta amphora traditionally used to decorate patios and terraces. Made from synthetic fibres, the light is artfully diffused to ensure a glare free light source that avoids any harshness. The Amphora floor light emits a soft, warm glow that fills the space with ambient lighting and is suitable for both outdoor and indoor use thanks to its IP66 certification.

The Amphora LED Floor Lamp is a perfect addition to your garden, conservatory or hallway, and in commercial settings it can be used to create beautiful ambient lighting in outdoor hospitality environments.
