Amphora LED Floor Lamp by Bover

The Amphora LED floor lamp is the newest and smallest light of the [Bover Amphora collection](#), a wonderful range by Alex Fernández Camps & Gonzalo Milá. The floor lamp has a lovely rounded shape that gets thinner as it reaches the top. The integrated LED light source sits in the bottom, encased by an inner diffuser globe which evokes images of nature and nurturing.

The Amphora floor light emits a soft, warm glow that fills the space well and is suitable for both outdoor and indoor use thanks to its IP rating of 66. The floor light is available in 2 colours, light beige or rattan brown, and has a brown metal tripod which the lampshade sits on. The beautiful woven effect and the organic shapes make this lamp not one to miss and is suitable for a wide variety of settings.

Designer: Alex Fernández Camps & Gonzalo Milá

IP Code: 66

Dimming: No switch

Dimensions:

Ø31cm

47cm height

380cm cable length
