Bocci 73t Table and Wall Light

The Bocci 73t Table Lamp is a unique and artistic piece, created from a blown glass shade paired with a brass base. The lampshade is made by blowing liquid glass into a heat-resistant, folded ceramic fabric vessel. The shape is then formed, giving it a texture that resembles fabric, being an intriguing and interesting form of glass. This process makes each 73t wall and table light unique in its size, shape and proportion.

The Bocci 73t Light is available in 4 colour finishes: clear, grey 1, grey 2 and grey 3, with the lamp appearing solid when off but then illuminating and exposing the light source when switched on. The soft, diffused glow creates a wonderful atmosphere that can be adjusted with the handy dimmer switch. The lamp can also be assembled on the wall with a notch on the base and a switch to attach it. Use in many interiors for a one-of-a-kind decoration and lighting solution.

Please Note: This light can not be hard-wired when attached to the wall. Therefore, it will need to be positioned near a socket when being used as a wall light.

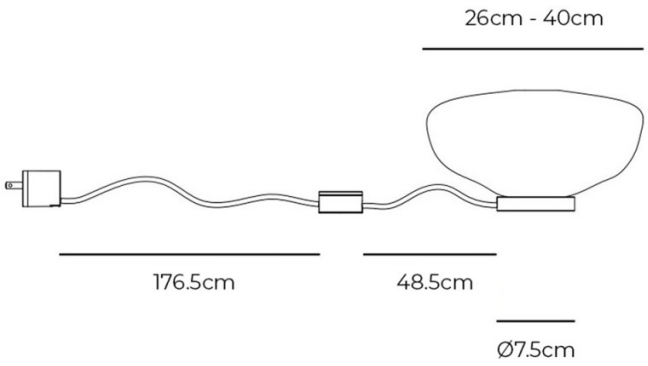

PRODUCT SPECIFICATION

Light Source: 1.5W, 2500K, 130 Lumens

IP Code: 30

Dimming: In-line dimmer included on cable.

Dimensions: Shade: Ø26cm-40cm
Base: Ø7.5cm
Cable Length: 229cm
