PRODUCT DESCRIPTION

73t Table and Wall Light by Bocci

The 73t table lamp is a unique and artistic piece, created from a blown glass shade paired with a brass base. The lampshade is made from blowing liquid glass into a heat-resistant, folded ceramic fabric vessel. The shape is then formed, giving it a texture that resembles fabric, being an intriguing and interesting form of glass. This process makes each 73t wall and table light unique in its size, shape and proportion.

The Bocci 73t light is available in 4 colours finishes, clear, grey 1, grey 2 and grey 3, with the lamp appearing solid when off but then illuminates and exposes the light source when switched on. The soft, diffused glow creates a wonderful atmosphere that can be adjusted with the handy dimmer switch. The lamp can also be assembled on the wall with a notch on the base and switch to attach it. Use in many interiors for a one-of-a-kind decoration and lighting solution.

**This light can not be hard-wired when attached to the wall.
Please position near a socket to plug it in.**

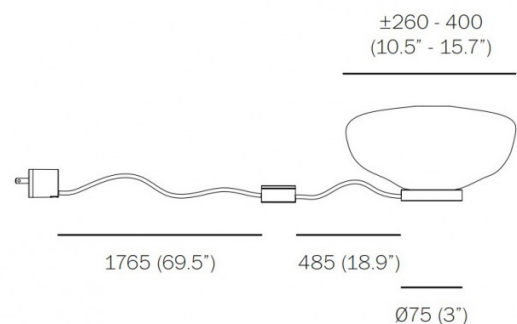

PRODUCT SPECIFICATION

Light Source: 1.5W, 2500K, 130 Lumens

IP Code: 20

Dimming: In line dimmer included on cable.

Dimensions: Shade: Ø26cm-40cm
Base: Ø7.5cm
