PRODUCT DESCRIPTION

Designer: Vilhelm Lauritzen

Louis Poulsen VL 45 Radiohus LED Pendant Light

The Louis Poulsen VL 45 Radiohus Pendant features an elegant shade made from 3 layers of glass, shaped into a smooth, round form that is classic and elegant. The outer and inner layers are transparent, and the middle layer is white, completely concealing the integrated LED source.

The VL 45 Radiohus LED Pendant can be used in many settings and will provide an effective yet soft glow as the light diffuses throughout the room. The pendant light will look wonderful in lounges, bedrooms and dining areas, being useful in the home and in commercial settings. This pendant is also dimmable, with a dim-to-warm function which changes the colour temperature, going from 1600K (very warm white) to 3000K (warm white), allowing you to create the perfect ambience in your space. Use alone or in multiple to suit all your lighting needs.

The VL 45 Radiohus LED pendant light has a dim-to-warm function, which is available to buy online as dimmable via mains phase dimming. This light is also available with a dim-to-warm function controlled either by Dali dimming systems or via Bluetooth. For more information and to purchase these options, please contact us.
