PRODUCT DESCRIPTION

Designer: Space Copenhagen

&Tradition Lucca SC51 LED Portable Lamp

The &Tradition Lucca Portable Lamp was designed by Space Copenhagen, a studio known for its poetic modernism and attention to detail. By balancing classic and modern design, Space Copenhagen created a multipurpose piece that echoes the comforting glow that illuminates quaint villages at night. Defined by its soft, curving lines, the Lucca Portable features a streamlined silhouette that blends seamlessly into classic and contemporary interiors alike.

The outer shell of the Lucca Portable Lamp is made from satinised opal glass, which diffuses light into a soft and warming glow. A discreet three-step dimmer on the base allows users to adjust light intensity to match any mood. Charge via the included USB-A charging cable to produce up to 12 hours of light, depending on the brightness selected. With an IP rating of 44, the Lucca easily transitions from indoors to outside. Carry around the home for added ambience where required or take the Lucca outdoors to illuminate a picnic blanket on a warm summer evening.
