PRODUCT DESCRIPTION

Designer: Michael Anastassiades

Flos IC Double Wall / Ceiling Light

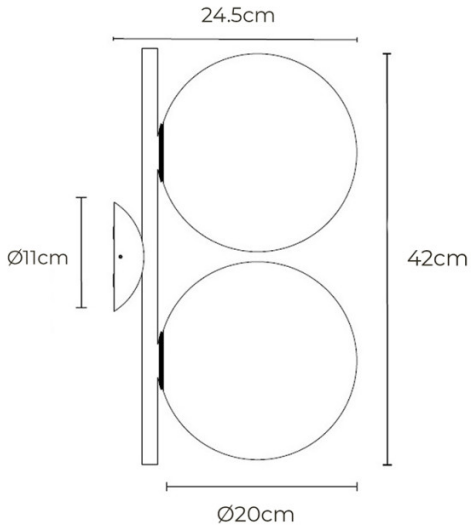

The IC Double Wall/Ceiling Light is part of the **Flos IC Lights Collection**, a range designed by Michael Anastassiades. This contemporary ceiling/wall light is characterised by 2 elegant, spherical glossy glass shades that sit on a simple metal rod, generating a minimalist yet classic design. These glass diffusers assist in producing an evenly spread and glare-free glow.

The IC Double Ceiling and Wall Light can be used in many settings, being suitable for many applications around the home or professional interior. The design makes it unimposing in the space, but as it is turned on becomes a focus in the room thanks to its soft yet effective glow. The wall/ceiling lamp is available in 3 finishes, chrome, brass or black, so you can find the right look and size for your interior.

Compatible Flos LED E14 T28 7.5W bulbs can be purchased separately.
