FLOS

IC Double Wall/Ceiling Light by Flos

The IC Double wall and ceiling light is part of the [Flos IC Lights collection](#), a range designed by Michael Anastassiades. The ceiling/wall light is characterised by 2 elegant, spherical glass shades that sit on a simple metal rod, being a minimalist yet classic design.

The IC Double ceiling and wall light can be used in many settings, being suitable for many applications around the home or professional interior. The design makes it unimposing in the space, but as it is turned on becomes a focus in the room thanks to its soft, diffused and effective glow. The wall/ceiling lamp is available in 4 finishes, chrome, brass, black or glossy red burgundy, and 2 sizes, the smaller C/W1 and the bigger C/W2, so you can find the right look and size for your interior.
