PRODUCT DESCRIPTION

Designer: Space Copenhagen

&Tradition Como Portable Lamp

The Como Portable Lamp was created by Space Copenhagen for &Tradition. Space Copenhagen are known for its sculptural designs that are timeless and dynamic. This is beautifully represented in the Como Portable Lamp. Crafted from anodised aluminium, the lamp's study base tapers up into a softly curved, mushroom-shaped shade. The finish options include Bronzed, Brass, Black, Aluminium, Red Brown, and Stone Blue. This range of colourways is designed to bring a contemporary edge with a bold personality to any space.

The dynamic design of the Como Portable Lamp allows it to bring an ornamental presence, even when not in use. When illuminated, the rounded shade guides light downward into a soft and glare-free glow. This diffused lighting bathes the surrounding space in a warm light, creating a cosy and comfortable ambience. The integrated three-step dimmer allows users to adjust light intensity to suit any mood. Charge via the included USB-A charging cable for up to 6 hours of light, depending on the brightness selected. With an IP rating of 44, the Como Portable Lamp is suitable for indoor and outdoor environments. Display in a bedroom or living room to add intimate lighting and a comfortable atmosphere, or bring the Como outdoors to softly illuminate warm summer evenings.

A multi-charging tray is available for the Como Portable Lamp. Capable of charging 12 lamps simultaneously, the charging tray is perfect for use in the hospitality industry. Contact us for more information and pricing.

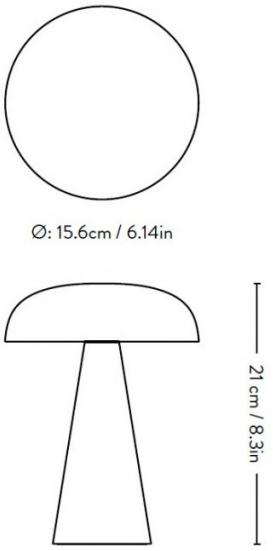

PRODUCT SPECIFICATION

Light Source: 1 x Max 1W G4 LED (Included)

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: Shade: Ø15.6cm
Height: 21cm
Charging Cable: 200cm
