PRODUCT DESCRIPTION

Designer: Studio Toer

Moooi Flock of Light LED Suspension Light

Studio Toer drew inspiration from the twilight, that mystical time between day and night on a summer evening, when sparks of light around you create this wondrous moment of serenity. The designers managed to capture that moment in their latest creation, the Flock of Lights. The suspension brings small swarms of light into your home, creating a warm and poetic glow.

Studio Toer, based in the Netherlands, is known for pushing the technical and aesthetic limits in the design world. A suggestion of movement is always present in their designs. Creating innovative designs, Flock of Light is a true testament to their abilities; an artistic piece by day and a swarm of light by night. Flock of Lights is available in three sizes, 11, 21 or 31, denoting the number of LED light sources. The light is made of brass cups and bronze wires, while the diffusers are made of semi-transparent polycarbonate.

Please note The Flock of Light 31 is compatible with the Moooi wireless dimming switch, which is available to purchase separately and enables you to dim your Moooi suspension fitting without the need for additional wiring. The Wireless switch comes with a dimmable module that is fitted inside the ceiling canopy of your light. You can then use the switch to dim your Moooi Flock of Light 31 to the perfect lumens output. Please **contact us** for further information and prices.

PRODUCT SPECIFICATION

Light Source:
Flock of Light 11: 12W, 2500K, 1240 Lumens
Flock of Light 21: 22W, 2500K, 2308 Lumens
