PRODUCT DESCRIPTION

Designer: Joost van Bleiswijk

Tinkering by Moooi

Joost van Bleiswijk who designed the Tinkering light, had spent hours researching to capture and reflect light. Joost managed to create a see-through composition of lights, the Tinkering lamp. The suspension, for Joost, is a symbol of curiosity and was made using metal, screwdrivers, saws.

The Moooi suspension light is powered by **Electrosandwich®**, as with many other lights of the brand. This LED technology was developed exclusively by Moooi and allows each LED module to be powered by using conductive material within the structure. Thus eliminating the need for cables and wires, keeping a clean cut design.

Tinkering comes in two sizes, the smallest Tinkering 85 and larger 140, and are powered by 7 and 12 LED modules respectively. Dimmable via trailing edge, means that you can tailor the light's brightness to your liking; instantly changing the atmosphere in the room. Suspend the light above a dining table or kitchen counter, or above any meeting area. With a 2.5m cable length, you can hang the Tinkering suspension lights from any interior setting, including high ceiling spaces.

PRODUCT SPECIFICATION

Light Source: **Tinkering 85** 10W, 2700K, 420 Lumens
Tinkering 140 17W, 2700K, 742 Lumens

IP Code: 20

Dimming: Dimmable via trailing edge.

Dimensions:

Tinkering 85
Length: 83cm
Height: 29cm
Width: 41cm
Cable Length: 250cm

Tinkering 140
Length: 139cm
Height: 30cm
Width: 47cm
Cable Length: 250cm
