Evita Floor Lamp by KDLN

Designed by Aquilialberg, the Evita floor lamp has a graphic and strong aesthetic, combining curves and straight lines to create a truly evocative piece. The floor lamp is named after Eva Perón whose strength and grace as a feminist and international pop culture figure is emulated by the lamp's silhouette.

The Evita floor light is made from a combination of steel and technopolymer, with a dualistic colour scheme that creates a warm, soft glow. The floor light is available in 2 colours, dove grey or warm white and also comes with a dimmer switch, allowing you to create the exact ambience you want. Use in many interiors to add a contemporary and modern look to the space.
