PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

Kushi XL Table Lamp by KDLN

The Kushi XL table lamp was released in 2019 by designers Alberto Saggia and Valerio Sommella and is part of the [KDLN Kushi collection](#). The table lamp has an opal white glass lampshade that sits on a metal stem, which is available in a black, brass or copper colour finish. The combination of glass and metal works as a contrast in design, as the curvaceous shade and rigid structure produce a compelling and interesting aesthetic.

The glass shade of the Kushi XL table light works to produce a diffused glow that is soft and inviting. The table lamp can be used on tables, desks, shelves, side tables and more, working as an atmospheric light or as a handy task/reading light. You can use this table light in homes or commercial spaces and will add a modern and stylish touch to your interior.
