PRODUCT DESCRIPTION

Designer: Behurt

Tua LED Wall Light by KDLN

The Tua LED wall light was designed by Behurt in 2014, and combines traditional and modern ideas to produce an intriguing and appealing light. The wall light emits a downward and upward glow which reflects off the wall and illuminates the space well.

The Tua wall lamp has an integrated LED light source which is long-lasting and energy-saving. The wall lamp is also dimmable so you can create either a soft, warm atmosphere or a bright and lively atmosphere. The LED wall lamp comes in a subtle black tin colour with white glass diffusers, so can be used in a wide variety of settings, whether in the home or in a commercial space. Place the Tua along a corridor or hallway and enjoy its delicate upward light and the gentle downward glow.
