PRODUCT DESCRIPTION

Designer: Verner Panton

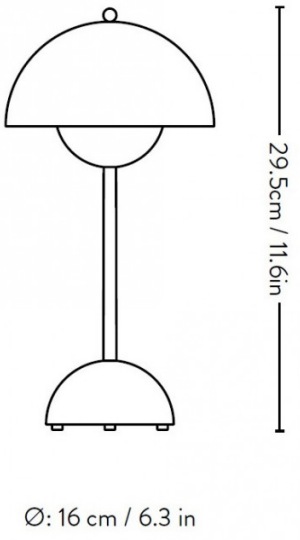

&Tradition Flowerpot VP9 Portable Lamp

Designed by Verner Panton, the Flowerpot VP9 Portable Lamp reflects the experimental approach that the Danish designer applied to his work. Panton incorporated colour into his designs, believing that colour holds meaning and purpose within the home. Available in 17 vibrant colour options, the VP9 adds a bold character to any space while remaining functional and playful. Its lightweight design makes it easy to move as needed, and the IP44 rating allows it to be used both indoors and outdoors.

When illuminated, the VP9 Portable Lamp creates a warm, diffused glow. The metal shade guides light downwards, perfect for illuminating tables, desks, or a bookshelf. An integrated three-step dimmer allows users to adjust light intensity to suit any environment. The VP9 is chargeable via the included USB-A cable for up to 10 hours of operating time, depending on the brightness selected. Display in a reading nook, on a coffee table, or take it outdoors on a warm summer evening to create soft, ambient lighting.

PRODUCT SPECIFICATION

Light Source:	3W, 2700K, 104 Lumens
IP Code:	44
Dimming:	Integrated dimmer on the product.
