PRODUCT DESCRIPTION

Unseen LED Table Lamp by Petite Friture

Designed by Studio Pepe for Petite Friture, the Unseen LED table light is a testament to purity through light. The designers were inspired by neon lighting, recreating and reinventing the style to produce a chic and stylish table lamp. The lamp is made from a brass structure and a polycarbonate tube, which bends round and houses LED technology.

The table light emits a strong and far-reaching glow which is also dimmable so you can create the right atmosphere in your space. An innovative and unique aesthetic, the Unseen table lamp can be used in a wide variety of settings, whether you want a bright light for reading in your office or a cosy light to relax in your lounge. Choose from a small or large size to find the right fit for your interior.
