PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Septima Pendant Light

The Louis Poulsen Septima Pendant was first seen as a prototype in 1928 at the Danish Museum of Decorative Art and was acclaimed and applauded at the time. Designed by the iconic Poul Henningsen, the designer is known for his three-shade system lights that to this day are still produced by Louis Poulsen. They allow light to be spread evenly in a glare-free manner and fill the room with a warm illumination.

The original Septima Pendant Light went out of production in the 1940s and now enjoys new life with its reissue, as it is made from beautiful borosilicate glass. The seven shades each have an alternating clear and frosted glass panel pattern, which further helps to diffuse the light source, creating an inviting and welcoming atmosphere. The inner light fixture is made from untreated brass, lending an elegant and sophisticated touch to an already renowned pendant light. Use in many settings, whether in the home or in a professional space, to provide timeless style and a cosy lighting atmosphere that is both comforting and effective.

PRODUCT SPECIFICATION

Light Source:	1 x Max 21W E27 LED (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Shade: Ø50cm Height: 40.5cm Cable Length: 300cm
