PRODUCT DESCRIPTION

Designer: Philip Bro Ludvigsen

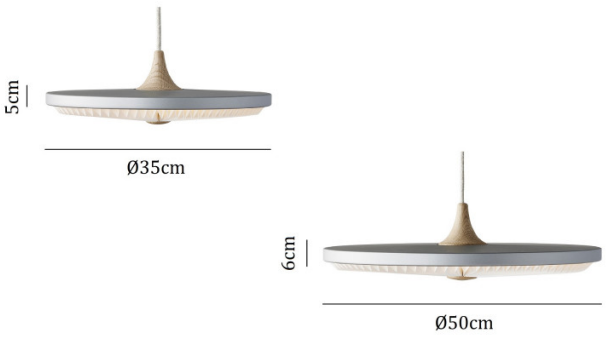

Le Klint Soleil LED Pendant Light

The Soleil pendant was inspired and named after the sun. When illuminated, the pleated paper radiated from the centre of the lamp like a sun. The pleated material is hand-folded by skilled craftspeople in Le Klint's pleating studio in Odense, Denmark. The diffused downward-directed light provides minimal glare, making the Soleil pendant an ideal lighting solution above a table in a dining room or meeting room.

The sleek metal structure and oak detailing give the Soleil pendant a contemporary aesthetic with a natural touch. The pendant is available in two sizes, allowing it to fit into a range of interiors. The Soleil is a striking pendant that draws the eye, whether installed individually or in multiples, running the length of a long table. In commercial spaces, hang the Soliel in an office or modern bar to create functional light that adds a warm atmosphere to the room.

PRODUCT SPECIFICATION

Light Source:	**Small:** 50W, 2700K, 650 Lumens **Medium:** 70W, 2700K, 980 Lumens
IP Code:	20
Dimming:	Non-Dimmable.
Dimensions:	**Small:** Ø35cm Height: 5cm **Medium:** Ø50cm Height: 6cm Cable Length: 300cm
