PRODUCT DESCRIPTION

Designer: Christian Troels

Pliverre Arched Floor Lamp by Le Klint

This floor lamp is a new 2020 version of the Pliverre floor lamp, being made from one fluid structure instead of several angular parts. The lampshade is made from opal glass and takes on the pleated design which Le Klint's lights are renowned for.

By using glass instead of the usual paper or plastic foil, the designer Christian Troels, creates a warm, diffused glow which is also directed thanks to the shape of the shade. The lampshade can also be angled so the Pliverre arched floor light can be used as a reading/task light or as an ambient lamp. The elegant and stylish design makes the floor light suitable for many settings, and will look particularly good in lounges and offices.
