PRODUCT DESCRIPTION

Designer: Simon Legald

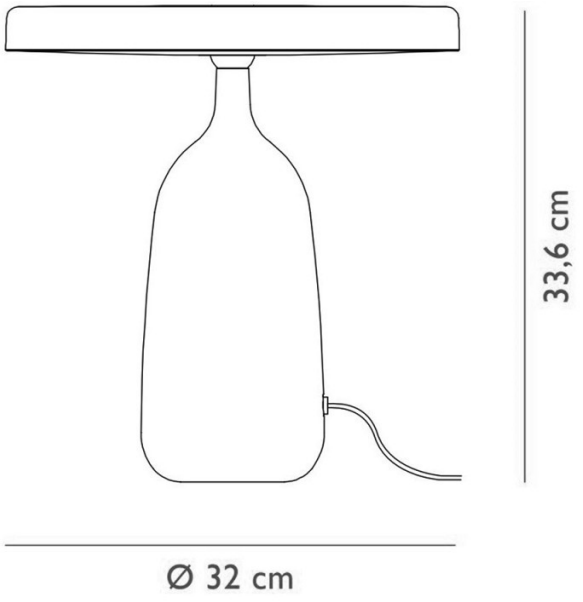

Normann Copenhagen Eddy LED Table Lamp

The Normann Copenhagen Eddy LED Table Lamp was designed by Simon Legald, who utilises contrasts and balance with an airy steel circle shade that is connected to the heavy and organic marble base with a brass ball. With a built-in LED light source, Eddy is long-lasting and spreads light evenly through the lampshade down onto the surface below. The shade also has a brass touch dimmer on the top, allowing you to easily personalise the lighting output and generate an atmosphere that suits your needs.

The shade of the Normann Copenhagen Eddy Table Lamp is adjustable, which means that you can easily direct the light to the desired spot. This table light is available in three different colours: black, grey, and white. It can be used in various settings, including homes and commercial spaces. The black and grey versions of Eddy come with a black cable, while the white version comes with a white cable as standard.

PRODUCT SPECIFICATION

Light Source:	16.5W, 3000K, 1155 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø32cm Height: 33.6cm Cable Length: 200cm
