PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Grant LED Table Lamp

Normann Copenhagen Grant LED Table Lamp was designed by Simon Legald as part of the Grant Collection. It is constructed from a polished steel structure, in a black or brass finish, and a black granite base. The granular nature of the base contrasts with the sleek metal material, creating a graceful, majestic and interesting look. The shade also has a dispersion lens to create a warming, soft glow.

The Grant Table Lamp can be used in many settings, on tables, desks, shelves, side tables and more, as a handy reading light or as an ambient lamp. The table lamp has a dimmer switch so you can create the right atmosphere in your room. Its stylish and timeless design combined with its form and function makes this table light very versatile and will last long thanks to the integrated LED light source.
