PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Grant LED Floor Lamp

Normann Copenhagen Grant LED Floor Lamp was designed by Simon Legald and is characterised by a combination of contrasts. The Grant Floor Lamp has a granite base attached to a 136cm metal structure, the sleek aesthetic of the metal structure contrasts with the granular look of the granite and together, both materials create an interesting aesthetic that is defined by an antithetic symbiosis.

The Grant Floor Lamp has an integrated LED light source which has a soft and diffused, even glow thanks to the dispersion lens hidden within the lampshade. A dimmer switch is attached to the cable, allowing you to create the perfect atmosphere for your space. Available in both a black and brass finish, the Grant Floor Lamp is versatile and suits almost any environment it's positioned in. Legald designed this floor lamp to be used for both task and reading lighting within an office space or simply in your lounge.
