PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Grant LED Wall Light

The Normann Copenhagen Grant Wall Light is a part of the **Grant Collection**, a range designed by Simon Legald. Available in a black or brass finish, the wall light is made from polished steel with a subtle black granite base that sits below the structure. The combination of materials contrasts with each other, creating an elegant and graceful aesthetic that is intriguing and alluring.

This wall lamp comes in 2 sizes, the shorter 43cm and the longer 111cm, so you can find the right fit and function for your space. The dispersion lens in the shade means the included LED light source is diffused and soft, perfect for a welcoming atmosphere. The included dimmer switch on the cable allows you to create just the right light setting, whether you need a bright light for tasks/reading or a soft light for a cosy night in. Use in homes and commercial spaces in many interiors, from lounges to offices, corridors to reception areas.

Please Note: This wall lamp comes with a 4m cable and plug, so needs to be installed by a socket.
