PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Phantom Pendant

The Normann Copenhagen Phantom Pendant was designed by Simon Legald and is a new take on the classic silhouette of a chandelier. The designer reinterprets this silhouette by uniquely creating the pendant, the lampshade is constructed from a steel skeleton which is sprayed with a special type of resin, creating a veiled effect that is natural and eye-catching. The minimalistic design is a testament to the careful attention to detail and commitment to quality that went into its creation and adds an elegant touch to any interior.

The Phantom Pendant is available in 3 sizes, each with its own shape, and provides an indirect and warming glow that fills the room. This pendant lamp's dramatic and alluring aesthetic will be a focal point in the room, suitable for small and big spaces. Cleverly constructed to be perfect in both residential and commercial settings, this pendant can be used independently or in multiple to provide a welcoming and artistic look to your interior.
