PRODUCT DESCRIPTION

Designer: Tom Dixon

Globe LED Floor Lamp by Tom Dixon

The Globe floor lamp is a new release from Tom Dixon and expresses a minimal and spherical form that is pure and simple. The shade is made from polycarbonate that is metallised on the inside so that when it is turned on multiple reflections are created, seemingly out of nowhere. This metallisation also creates a flawless finish, that is protected from scratching and external wear. A transformative light, this floor lamp resembles an old crystal ball, being both magical and intriguing.

The Globe floor light comes in 2 colours, copper or silver, and has a sleek body so you can put it in even the tiniest of spaces. The reflective nature of the lamp means effective illumination is achieved, being suitable for creating a welcoming atmosphere in many settings. Use in professional spaces and homes to create a contemporary and interesting aesthetic in the room.

The integrated LED light engine is replaceable. This can only be sourced via Tom Dixon. Please contact us for details
