Marset Ginger 20 M LED Portable Table Lamp

Marset Ginger 20 M LED Portable Table Lamp is a rechargeable table lamp by Joan Gaspar, developed as a smaller portable version within the Ginger collection. The design keeps Ginger's thin circular shade and warm reflected light, with the light source hidden beneath the diffuser. In the wood versions, sheets of wood, paper, and resin are pressed together under high pressure to create a very slim laminate that keeps the natural look of oak or wenge without the shade feeling heavy.

The portable format makes Ginger 20 M easy to move between side tables, shelves, bedside tables, dining tables, and relaxed seating areas. The battery is housed inside the base, keeping the lamp cordless while in use. At full power, the battery lasts up to 5 hours, extending to 10 hours at half power and 20 hours at quarter power. The three-position dimmer allows the light level to be adjusted for brighter table light or a softer evening glow.

Ginger 20 M is available in Oak, Wenge, Brushed Brass, and Brushed Brass / White finishes. The integrated 2700K LED gives a warm light, and the lamp recharges in around 10 hours. Most suited to bedrooms, living rooms, dining tables, shelves, sideboards, restaurants, hotels, and spaces where a small cordless table lamp can provide warm reflected light without needing a plug socket nearby.

PRODUCT SPECIFICATION

Light Source:	3.5W, 2700K, 290 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø19.5cm Shade Height: 3.9cm Total Height: 30cm Base: Ø14cm
