PRODUCT DESCRIPTION

Designer: Joan Gaspar

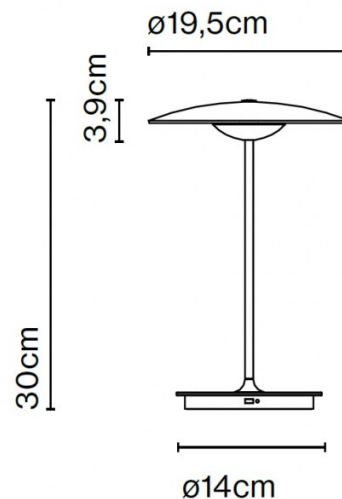

Marset Ginger 20 M Portable Table Lamp

This 20 M portable table lamp is the most recent addition to the Ginger collection designed by Joan Gaspar. The delicate-looking shade is made of a thin layer of wood that has been expertly molded using high pressure and layering paper and resin. This technique creates a unique design that uses wood in a new and exciting way.

The metallic stem and base contrast with the soft cosy wood to create a hardy and easily transported portable lamp. The battery is located within the metal base of the lamp and, when fully charged, can give 5 hours of light at full brightness. The three-stage dimmer allows you to control the light intensity with ease and precision. Charged with a USBC charging cable, the Ginger 20M portable gives you the freedom to take light wherever you go!
