PRODUCT DESCRIPTION

Designer: Omer Arbel

Bocci 73.1V Pendant Light

Available with a dimmable **Xenon 10W** light bulb or a non-dimmable **LED 1W** light bulb, the Bocci 73.1V Pendant is made from blown liquid glass. The glass is shaped by being blown into a ceramic fabric vessel, which forms an interesting shape and texture, being an exploration in design. The spontaneous nature of the lampshade creates an eye-catching look and will be a beautiful addition to any interior.

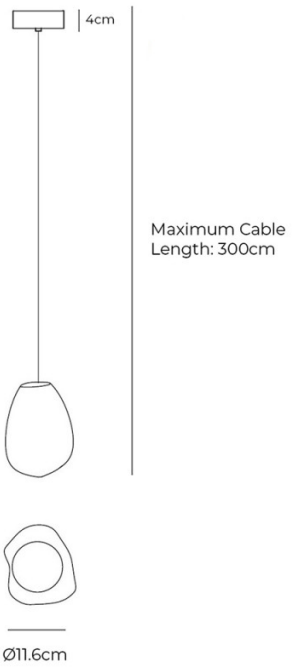

The glass of the 73.1V Pendant Lamp diffuses the light source to provide a warm and soft glow. Available in 7 different colours, you can find the right match for your design scheme, whether you need a subtle white or a captivating purple. This pendant light is part of the **Bocci 73V Series**, which also offers this light in bigger clusters. Use in homes and public settings, alone as a main light in a small room or in multiple for bigger spaces.

This single pendant comes with a deep ceiling canopy but is also available with a flush mini canopy or shallow canopy to suit all your needs. Please contact us for more information.

Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available; please contact us for more information and pricing.
