PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Artemide Tolomeo TW LED Table Lamp

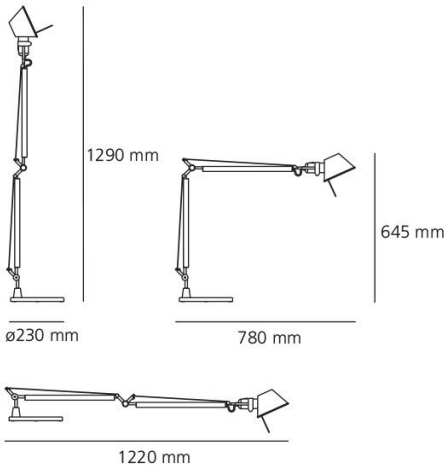

Part of the **Tolomeo Collection**, the Tolomeo TW LED Table Lamp maintains the instantly recognisable silhouette of the original Tolomeo Lamp from 1987. The TW blends classic aesthetics with innovative LED and Tunable White technology, enabling adjustment of light intensity and temperature. The light produced ranges from 2200 to 6500 Kelvins, from warm amber to cool blue, allowing users to adjust light output to suit any mood.

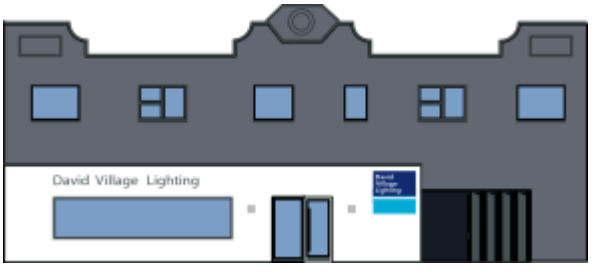

The Tolomeo TW LED Table Lamp features an articulated arm system with an innovative spring mechanism, ensuring ease of movement for flexibility of use. Light can be directed towards a work surface for functional task lighting or positioned to cast indirect light for a warm and relaxing atmosphere. With a contemporary aesthetic and impeccable functionality, the Tolomeo TW LED Table Lamp adds a touch of sophistication to residential and commercial interiors alike.

As well as a table base, the TW Table Lamp is available with a table clamp or desk fixed support. Contact us for more information and pricing.
