PRODUCT DESCRIPTION

Designer: Jakob Wagner

Ripls LED Ceiling / Wall Light by Louis Poulsen

Designed by Jakob Wagner, the Ripls ceiling/wall lamp is inspired by water as the design resembles ripples that are formed by concentric circles featured on the diffuser. The circular aesthetic conceals the light source and creates a warm glow that fades as it reaches the edges of the lampshade. A beautiful and mesmerising wall/ceiling light, the Ripls light fixture can be used in many settings, whether at home or in a professional setting.

Available in 2 sizes, the smaller Ø310 and the larger Ø500, this wall and ceiling light is useful in bedrooms, lounges, corridors, hallways and many more. The Ripls wall/ceiling light has an integrated LED source which is long-lasting and can also be dimmed by a Dali dimming system so you can create the exact atmosphere you need.

This light is also available with a motion sensor or able to be controlled via wireless bluetooth as well as in 2700K and 4000K Please [contact us](#) for more info and prices.
