PRODUCT DESCRIPTION

Designer: Diesel Creative Team

Urban Concrete Pendant Light by Diesel Living with Lodes

Inspired by concrete bollards seen in urban areas, the Urban Concrete pendant has a beautiful domed shape that is universal and clean. Despite its heavy and concrete block appearance, the pendant light is made from metal which means it is lightweight and airy. The inside has a white finish to create a soft glow that is diffused and directed downwards.

Suitable for application over tables and surfaces, as well as a main central light, the Urban Concrete pendant lamp is available in 3 chic colours, pink dust, soft grey and tough grey. The pendant is also available in 4 sizes, 25, 50, 60, 80 with 25 being the smallest and 80 being the largest. You can mix and match sizes and colours to create variety in your interior or have one size and colour for a more minimalist aesthetic. Perfect for many settings to add a sophisticated and intriguing touch.

The 25 size comes with a matt white ceiling canopy whilst the 50, 60 and 80 sizes come with a black ceiling canopy. The 25 size is available with a variety of different ceiling canopies and is also suitable to create a cluster suspension of varying sizes and configurations when purchased alongside a Diesel Living with Lodes multiple ceiling canopy. Please contact us for more info and prices.
