PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Geen-A Floor Lamp

Designed by Ferruccio Laviani, the Kartell Geen-A Floor Lamp is a geometric lighting solution that makes a statement no matter where it is displayed. Made from polyester powder-coated steel, this floor lamp has a contemporary aesthetic, defined by clean and simple shapes. The domed lampshade helps the light to be distributed evenly and directs the glow downwards, creating a cosy corner in a variety of spaces.

Available in white, black, red and bronze, the Geen-A Floor Lamp is ideal for use as a reading or task light, and adapts easily to both residential and commercial interiors. A wonderful addition to any space, this floor light will work wonderfully in lounges and offices and will provide much-needed illumination whilst also creating a warm ambience.
